

Learn how to Build Your Business... With Geothermal & Water Source Heat Pumps

Geothermal and water source heat pumps are the most efficient cooling and heating sources available today - and with the increasing high cost of fossil fuels, they're quickly becoming the HVAC system of choice. Our half-day training will give you the information you need to sell to customers and help you specify these exceptionally efficient systems.

Here's what you'll learn:

- ✓ How geothermal/water source systems work for both **NEW CONSTRUCTION** and **REPLACEMENTS**
- ✓ The difference between **CLOSED LOOP** and **GROUND WATER** systems, and which is best under what circumstances
- ✓ What models are designed for **RESIDENTIAL** use
- ✓ Which units work best for **COMMERCIAL** use
- ✓ What's available in **OPTIONS** such as hot water generator, heat exchanger, auxiliary heater
- ✓ How to **INSTALL** and **TROUBLESHOOT** a system
- ✓ Basics of **LOOP DESIGN** and fusion

You'll also receive handouts and reference materials!

MONDAY, February 13th

**AUGIE'S RESTAURANT
HARAHAN, LA
\$30 PER PERSON**

Registration Deadline: February 8th

Did you know.... with a residential geothermal system, over half the home's energy is **FREE**? Now that's something you can really sell!
